ASSIGNMENT FOR FRONT END DEVELOPMENT CANDIDATES

Dear Candidates,

We, hereby, mention the details of your task that you need to complete for moving ahead.

Task Details:

- Create an UI Design of a Student Profile page for a Student Management ERP with functions to add, edit, update, view & delete the details of a student.
- Tech stack include ReactJS, Redux & REST API.

- Design should be made responsive.

N.B:-

- For submission, upload the task in Google Drive in ZIP file format & share the Drive link by changing the Sharing options from "RESTRICED" to "ANYONE WITH LINK".

Best of Luck,

Technoboot.
